REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

Any comments considered necessary by applicant must be submitted no later than the Payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

The prior art of record does not anticipate the claimed processes. In addition, the prior art of record do not suggest or motivate one of ordinary skilled in the art to employ the two-step process steps to prepare the monoacetates of alkyne substituted terminal hydroxy compounds. The closest prior art, which has been cited on page 1 of the instant specification, teaches on page 626, third paragraph, that unsaturated diols yielded similar products for the saturated compounds described, thus the diacetate (III as claimed), which was converted into the monoacetate (95% yield). The reference does not teach the use of two different lipases in the two-step claimed process, thus the instant claims are patentable over the reference as well as all of the art of record.
